

College of Undergraduate Studies (UGST)

Bachelor's - Individual Studies

- Students will demonstrate the ability to gather information, understand the defining-concepts from three or more areas of study, and combine these concepts to propose an individually designed major to be independently pursued.
- Students will be able to apply the concepts of their individually designed major in an internship or independent research project.
- Through a final capstone project, students will demonstrate their ability to integrate different areas of study to examine a question, problem, or phenomenon.
